DIARISE UPCOMING WORKSHOPS	
Workshop 3	Friday, 13 September 2019

RSVP Essential	
ONLINE: AT:	https://goo.gl/forms/gmho521gBW4PCSPh1
BY:	Thursday, 8 August 2019 for **WORKSHOP 2**

Biography

Dr Upasana Singh

Dr Upasana Singh is a lecturer in the Discipline of Information Systems and Technology. She has a keen interest in Technology in Education with her PhD on electronic assessment. She successfully implemented the first formative e-assessment in the School of MIG at UKZN in 2014. In 2019 she completed a 2 year training program in the "Teaching Advancement in Universities" (TAU) Fellowship, which has inspired her to fulfil her role as a Teaching and Learning Change Agent at UKZN.

About the Workshops

Is MCQ your primary form of assessment? Are you conducting your MCQ assessments using the traditional OCR answer sheets? Would you like to make the change to Digital Teaching and Learning and Assessment. Join us for a series of workshops that will empower academics to adopt the Moodle Quiz, Discussion Forums and Assignment tools.

The primary focus of **WORKSHOP 2,** will be hands-on practical sessions, where academics will experiment with the creating various types of questions in the Moodle Quiz, while guiding them on how to convert their paper based questions to online questions, still promoting higher-order thinking, and not just the lower end question types in Bloom's Taxonomy. **WORKSHOP 3** will introduce other available assessment tools such as Assignments and Discussion Forums.

The workshops are planned a month apart, allowing academics time to experiment on their own, with support from Dr Singh between the sessions, creating a core group of academics who can share their e-assessment practices, to support blended learning at UKZN.

We hope you will join us on this exciting journey in adopting the assessment tools available in Moodle.

Attendance at WORKSHOP 1 is NOT a pre-requisite to attend WORKSHOP 2 or 3. Please do join us even if you missed WORKSHOP 1.
