

The UKZN Teaching & Learning Office (UTLO)

Cordially invites academic staff to a

Mentorship Development Programme

ABOUT THE MENTORSHIP PROGRAMME

Mentorship has long been regarded as an essential component in nurturing and developing early career academics 'to grow into confident, competent, scholarly teachers. Regrettably, only a fraction of ECAs currently enjoy the benefits of mentoring at UKZN.

The purpose of this initiative is to expose 'senior' academics (who are willing to be trained as Mentors) to a set of generic and specific mentorship skills.

The programme which runs over four, half-day sessions will provide mentorship training on Teaching & Learning; Research and Career Development through a compendium of possibilities using a tool/model designed for this purpose.

RSVP Essential by 1 June 2018
