Webinar Overview

The focus of this workshop will be the use of podcasts in teaching and research. Professor Thaldar produced twenty podcasts for his fourth-year LLB students in Bioethics. These podcasts were based on seven seminal articles published by Professor Thaldar's research group that are prescribed reading for the students. His methodology involved converting the essence of the article into either an informal monologue or a dialogue with a co-author. Each podcast is about 10 to 15 minutes in length.

From this workshop, attendees will gain an understanding of the process involved in developing a podcast series to expand the research reach and assist students with understanding teaching materials.

Meet the Facilitator

Donrich Thaldar is Full Professor of Law at the University of KwaZulu-Natal, Durban. He has published over 70 articles in local and international academic journals, and is the Principal Investigator in a research project on the legal aspects of the use of data science in health innovation in Africa, funded by the US National Institutes of Health. He also has a private legal practice, and has served as legal counsel in 18 reported cases.
