Facilitated by the Instructional & Learning Design Team

The **3rd Instructional & Learning Design Expo** - aims to cultivate educational innovation by inspiring academics to embrace cutting-edge teaching and learning design practices. This high-caliber event introduces participants to innovative approaches that improve the effectiveness of teaching and learning.

The expo will showcase advances in teaching and learning design through presentations, breakaway sessions, exhibitions and interactive workshops. Attendees will explore trends such as **microlearning, project-based learning and authentic assessments**, as well as culturally sensitive teaching and developing accessible content.

Key components include presenting progress from the Instructional & Learning Design Sprints, hands-on interaction with digital tools and gathering participant feedback. The event will provide an opportunity for networking, collaboration and practical exercises in the application of new techniques.

Participants will gain valuable knowledge, try out new tools and contribute to the digital transformation of UKZN's curriculum. The aim of the Expo is to generate engagement, gather input and create a roadmap for improving teaching and learning design at the University.

INSTRUCTIONAL & LEARNING DESIGN

EXPO 2024

EVENT AGENDA

09h00 - 09h15: Welcome Session

- Introduction and overview of the day's schedule.

09h15 - 09h45: Presentation

Topic: "Innovative Instructional Design Practices"

- **Content:**
 - Overview of the latest trends in instructional design.
 - Introduction to microlearning and its benefits of digital education.
 - Discussion on Blended learning models.

09h45 - 10h45: Breakaway Sessions

- **Session 1: Microlearning Techniques**
 - How to design and implement microlearning techniques for enhanced retention.
- **Session 2: Project-Based Learning**
 - Strategies for incorporating real-world projects into the curriculum.
- **Session 3: Authentic Assessments**
 - Assessments designed to gauge students' abilities in real-world contexts.

10h45 - 11h00: Tea Break

11h00 - 12h00: Breakaway Sessions Continue

12h00 - 12h45: Lunch

12h45 - 13h45: Exhibition

- **Showcasing Design Sprint Progress**
 - Display of resources developed during the first two sprints of the digital curriculum transformation project.
- **Interactive Elements**
 - Hands-on interaction with digital tools and resources created during the sprints.
- **Feedback Booths**
 - Opportunities to provide feedback .

13h45 - 15h00: Closing Remarks

- Summary of key takeaways from the exposition.
- Next steps for participants in their instructional design journey.
- Announcement of upcoming events and opportunities for further learning.
